

Company information in Bulgarian 	<p>RUDI-2010 Ltd has been established in 2010 in Sofia capital city, with main activity ♦ wholesale and retail of ball bearings. Our slogan is quality, professionalism and partnership. As a successor of Rudi-r Ltd., through the years RUDI-2010 Ltd. settled on the bulgarian market as one of the leading companies in that area. At this moment we have in stock a wide range of products - ball bearings, Shaft seals, Circlips, bulbs, o-rings, Seals for reciprocating applications, U-rings, joints, Silicone ducts and V-belts. Our contacts with big companies ♦ producers and importers, helped with our settlement with large variety of accessories and stock, which has helped in increasing the number of our customers. Our politics relies on partnership and loyalty towards customers and suppliers. The evidence are the companies from the transport, food and mechanical industry, including small business - which sells ball bearings, as a main clients and suppliers. Long term experience with customers with various demandings and the created contact network with Bulgarian and West European companies, gives us a excellent advantage in professional handling on every single clients request.</p> <p><i>photos from our shop and some events that we support</i></p> <p> </p>
